

Human Research Ethics Committee: Standard Conditions of Approval for exemptions.

- a) Anything which might affect the ethical acceptance of your project must be reported promptly, including:
 - *Adverse events*
 - *Significant unforeseen events*
 - *Other matters that may impact the ethical acceptability of the project.*
- b) Other Murdoch approvals (e.g. fieldwork approval) or approval from other institutions may also be necessary before the research can commence.
- c) Any equipment used must meet current safety standards. Purpose-built or modified equipment must be tested and certified by independent experts for compliance with safety standards.
- d) Research Ethics & Integrity must be notified of any changes to contact details including address, phone number and email.
- e) Graduate research degree candidates should also have Program of Study approval prior to commencing the research. Exceptions must be approved by the HREC.

If you have any concerns, please contact Research Ethics & Integrity in the first instance.
